DC190

Wake up to your favourite tunes

from iPod and radio

Wake up to your iPod music with the Philips Docking entertainment system DC190. Featuring dual alarms, the stylish system with mirror finishing also lets you start your day with music from your other portable devices via the MP3 Link.

Enjoy your music from multiple sources

- Digital tuning with preset stations for extra convenience
- MP3 Link for portable music playback
- Play and charge your iPod simultaneously

Start the day your way

- Weekday/weekend alarm setting to complement your lifestyle
- Gentle wake for a pleasant waking experience
- Wake up to your iPod music or radio tunes

Rich and clear sound

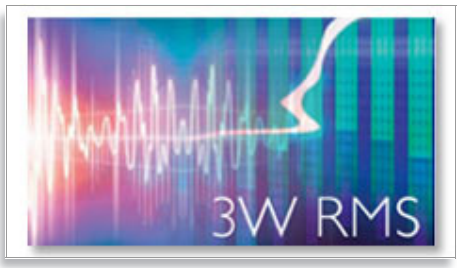
- 3 W RMS total output power
- Neodymium speaker drivers deliver pure balanced sound

PHILIPS

sense and simplicity

Highlights

3 W RMS



This system has a 3 W RMS total output power. RMS refers to Root Mean Square, which is a typical measurement of audio power, or rather, the electrical power transferred from an audio amplifier to a loudspeaker, which is measured in watts. The amount of electrical power delivered to the loudspeaker and its sensitivity determines the sound power that is generated. The higher the wattage, the better the sound power emitted by the speaker.

Weekday/weekend alarm

Designed with modern day lifestyles in mind, this clock radio has a dual alarm feature, allowing you to set different alarm times for weekdays and weekends or even vary the alarm settings for couples. The alarm settings can be tailored for the same alarm times for the entire week from Monday to Sunday. Or you can set the alarm for an early start on weekdays from Monday to Friday, and lazy lie-ins for Saturday and Sundays. Whichever you choose, this convenient feature saves you from the hassle of fiddling with different alarm times every single night.

Digital tuning with presets

Simply tune into the station that you want to preset, then press and hold the preset button to memorise the frequency. With preset radio stations that can be stored, you can quickly access your favourite radio station without having to manually tune the frequencies each time.

Gentle wake

Start your day the right way by waking up gently to a gradually increasing alarm volume. Normal alarm sounds with a pre-set volume are either too low to wake you up or are so uncomfortably loud that you are rudely jolted awake. Choose to wake up to your favourite music, radio station or buzzer alarm. Gentle wake's alarm volume gradually increases from subtly low to reasonably high in order to gently rouse you.

MP3 Link

The MP3 link connectivity allows direct playback of MP3 content from portable media players. Besides the benefit of enjoying your favourite music in the superior sound quality delivered by the audio system, the MP3 link is also extremely convenient as all you have to do is to plug your portable MP3 player into the audio system.

Neodymium speaker drivers

Neodymium is the best material for producing a strong magnetic field for greater sensitivity in a voice coil, better bass response and a pure balanced sound quality.

Wake up to iPod or radio

Wake up to your iPod music or radio tunes

Play and charge your iPod

Enjoy your favourite MP3 music while charging your iPod! The dock lets you connect your iPod directly to the Docking entertainment system so you can listen to your favourite music in superb sound quality. It also charges your iPod while it plays so you can enjoy your music and not have to worry about your iPod battery running out. The Docking entertainment system automatically charges your iPod while it is docked.

Specifications
